

Hair

A pre-wedding day trial is highly recommended to ensure that you and your stylist discuss styles and create some of options for your hairstyle. Please bring any head pieces or accessories that you plan to wear on your wedding day. Your trial should be scheduled between two and four weeks prior to your wedding day. It is important that you understand that your trial style will be a "loose" creation of your final wedding style. On your wedding day, every detail of your style will be finished to perfection!

Make-up

Like your hair design, a pre-wedding day trial is recommended. Your make-up artist will help you achieve the perfect look for your special day.

Skin and Waxing

We recommend that facial services and any facial waxing be completed at least one week prior to your wedding. Bikini and/or leg waxing can be performed up to three days prior to the wedding.

Nail Care

You should plan on scheduling your nail appointment(s) one or two days prior to your wedding day. Wet nails can be a problem on your wedding day, and it will be more relaxing to have them done early. We are happy to perform any touch-ups necessary on your wedding day.

Relaxation

During this exciting and stressful time, take time out for yourself! Schedule a massage and a relaxing body wrap during the week before your wedding to make sure you are at your best on your special day.

For the Groom

Let us help relieve those pre-wedding day jitters with a relaxing massage! To make sure he looks great, schedule a sports manicure and pedicure a few days before the wedding. We suggest that he have any waxing services performed at least two or three days before the wedding.
